

# ATHARVA SHENDKAR

Data Scientist | AI/ML Engineer

Pune, Maharashtra | +91 8010077479 | [atharvashendkar26@gmail.com](mailto:atharvashendkar26@gmail.com) | [LinkedIn](#)

## SUMMARY

Final-year Computer Engineering student with practical experience in Machine Learning, Generative AI, and Python. Built end-to-end AI projects using LangChain, Fast-API, SQL, and vector databases. Comfortable across the complete AI/ML lifecycle—from data preprocessing and model development to API deployment and evaluation. Passionate about applying AI to solve real-world problems and eager to contribute to enterprise-scale AI engineering teams. Seeking an opportunity to apply my skills in AI and Data Science.

## TECHNICAL SKILLS

**GenAI & RAG:** Retrieval-Augmented Generation (RAG), vector databases, semantic search, FAISS, LangChain, prompt engineering, Google Gemini, OpenAI GPT (API integration)

**Deep Learning Frameworks:** PyTorch, TensorFlow, scikit-learn, Hugging Face Transformers, BERT (fine-tuning), transfer learning

**Data & ML Tools:** Python (advanced), NumPy, pandas, matplotlib, SQL, Regression, Classification, Decision Trees, Random Forest, Feature Engineering, Model Tuning

**Languages & Frontend:** JavaScript, React.js

**Backend / APIs:** FastAPI, Flask, REST APIs, Pydantic, Node.js, Express.js

**Tools & Deploy:** Git, GitHub, Hugging Face Spaces, Docker (basics), MongoDB, SQLite

## PROJECTS

### Credit-Wise Loan Approval System

May 2026 – Jun 2026

Python, Scikit-Learn, Pandas, Machine Learning

- Developed an end-to-end machine learning pipeline to predict loan approval status, enhancing decision-making efficiency based on historical applicant data.
- Conducted comprehensive data pre-processing, including label encoding and one-hot encoding for categorical variables, alongside normalization for numerical features.

### Text Summarizer

Jun 2026 – July 2026

Python • Transformers (T5-Small) • Hugging Face • PyTorch • FastAPI

- Developed an AI-powered text summarization system using the **T5-Small Transformer** model to generate concise and context-aware summaries from long-form text.
- Built an end-to-end pipeline for text preprocessing, inference, and API-based deployment, enabling efficient and accurate abstractive summarization for documents and articles.

### SmartShop — AI-Driven Purchase Intent Predictor

Jan 2026 – Feb 2026

Python • Scikit-learn • Decision Tree • Pandas • NumPy • Flask • HTML • CSS

- Developed a **Decision Tree**-based machine learning model to predict customer purchase intent using user behavior and session data.
- Built a complete **ML pipeline** including data preprocessing, feature engineering, model training, evaluation, and Flask-based deployment for real-time purchase intent prediction

### AI-Powered Mock Interview Web Application (Final Year Project)

Oct 2025 – Jun 2026

Next.js • React • Google Gemini AI • MySQL • Firebase • Clerk Authentication

- Developed an AI-powered mock interview platform that generates role-specific technical and HR interview questions and provides automated, personalized feedback using Google Gemini AI.
- Designed a scalable full-stack architecture with secure authentication, hybrid database integration (MySQL & Firebase), and performance analytics to track user progress and enhance interview preparation.

## INTERNSHIP EXPERIENCE

### ITPA Intern – AutomationEdge

May 2026 – Present

- Currently undergoing training in **Intelligent Process Automation (ITPA)**, learning enterprise automation, workflow design, and RPA concepts using the AutomationEdge platform
- Building hands-on skills in process automation, bot development, Python integration, and AI-powered automation through practical exercises and guided projects through industry-oriented training.

## EDUCATION

### Bachelor of Engineering — Computer Engineering

Nov 2022 – May 2026

KJ College of Engineering and Management Research, Pune | SGPA: 8.4

## CERTIFICATIONS

**Data Science Certificate** — Cisco Academy, **Data Analytics Certificate** — Deloitte, **TCS iON Career Edge - Young Professional** — TCS, **Intro to Machine Learning** — Kaggle
